

## About Kurio

Kurio is a mobile technology company that is enabling a powerful new way to connect consumers and real estate professionals with localized real estate information and services.

For more information please visit  
<http://www.kurio.com>

*Quick Tip:*

*When inputting the price range in a search, you can type in 400k for 400,000. Likewise you can put in 1m for 1,000,000.*

## REBGV

**For Technical Support  
Call the helpdesk  
604-730-3020  
Or email

## Create Your Account

Before you begin, you must first register for an account. Use your regular board codes to register your account.

## What's New Today

The What's New Today section is similar to the Today's Hotsheet section on MLXChange.

## Smart Search

The Smart Search section will allow you to search for a listing by address or ML#.

## Advanced Search

The Advanced Search section allows you to search using common fields.

## View Nearby Properties

View Nearby Properties can be used if your device has the capability of determining your location.

## Roster Search

Roster search allows you to search for individual REALTORS® or offices.

## Open Houses

View open houses nearby using your device's location feature or use Advanced Search to enter criteria.

## More Search Options

Provides additional search options such as by address, cross street, and ML Number(s)

## Market Updates

Market Updates is a more comprehensive version of What's New Today (Today's Hotsheets).

## My Lists

The My Lists section is similar to Inventory Watch on MLXChange. It includes personal and office listings. It also allows you to review the listings you have marked as favorites.

## More Kurio Options

This page allows you to set your preferences. Select your board, change account options and test your devices location feature.
