COME HOME TO HARVEST

LIVE AT POLYGON'S MASTER-PLANNED WESTERLEIGH COMMUNITY IN ABBOTSFORD

The opportunity to buy a home in the next phase of Abbotsford's popular Westerleigh community is almost here! Construction on Harvest, 87 two and three-bedroom townhomes, is well underway and sales are anticipated to start in June.

Harvest is a collection of two and three bedroom townhome residences showcasing striking 'Modern-Farmhouse' architecture with stone cladding, charming window boxes and welcoming verandahs. Contemporary

interiors feature open-plan layouts and gourmet kitchens with granite countertops, stainless steel appliances, and warm laminate flooring.

Harvest is part of Westerleigh, a master-planned community in West Abbotsford, and living here offers many benefits for young families. Besides delivering a safe, walkable neighbourhood with attractive streetscapes and well-maintained landscaping, residents will have access to Westerleigh's resort-style private clubhouse. Slated to open this June, Club West features over 8,600 square-feet of amenities

including an outdoor pool, fitness studio, fireside lounge, hockey room, theatre room and much more.

"Previous communities at Westerleigh have sold out very quickly because of their superior value and competitive pricing," said Polygon VP of Sales and Marketing Ralph Archibald. Harvest will be no different, with homes starting in the mid- \$200's.

"Location is also going to be a real asset for homeowners at Harvest," added Archibald. Schools are within walking distance, Centre Ice Sports is right across the street, and Highstreet,

Abbotsford's highly anticipated 600,000-square-foot shopping centre with over 90 shops and restaurants including a new Marshalls, Old Navy, and Walmart is just five minutes away. Young couples and families with young children will find Harvest especially inviting. The homes are an excellent opportunity for people who are renting or living with family and are looking to get into the market to purchase a new home.
